

# **Chapter 1: The Foundation of Saving**

Saving money is the foundation of financial freedom. The author proposes the 50/30/20 rule. Index funds return about 7% per year on average over the long run, and you can start with as little as 1,000 baht.

## **Chapter 2: Basic Investing**

Diversification lowers risk compared to picking individual stocks. Start early, invest consistently, and do not panic when the market moves.

## **Chapter 3: Conclusion**

Start saving early, invest consistently, and stay calm through market cycles. This document is a fixture for the extraction test suite.
